Michallfarms@outlook.com

Completing this form for one breeding season is a requirement of the CI Junior Master Exhibitors Program. You may complete more than one form if you have multiple breeding pairs or pens. Please seek the help of an adult mentor if you have questions or problems breeding your cochins. It is suggested by most breeders of bantam cochins that artificial insemination techniques be used to increase fertility.

Name of Participant: _____ Breeding Season Date: _____

Breed and Variety/ Bantam or Large Fowl: _____

What are your breeding goals? _____

MALE BIRD:

Name or tag #: _____ Color: _____

Age: _____ Weight: _____

Strong points about male: _____
