

"THE SALINGER COOP"

Cochin Housing

Becky Salinger, Owner
Ashtabula, Ohio

February, 2013

The outside diameter is 10 x12. The doors to the runs are screen doors that we bought at home depot for about \$20. There are two small pens that measure 32 x 36. There are two larger pens that measure about 64 x 36. They can be further divided in half with another screen door. The end runs the width of the coop and has a 30 inch screen door and a large window for cross ventilation. There are 4 sliding windows that open onto their outside pens. We use sand in our runs. This year I plan on adding poultry netting to the pen tops.
