## Cochins International

Editor: Tom Roebuck Jr.

Established 1992

Volume 19, May 1, 1999

### Hand Crafted Perfection!!

Wow! Talk about a masterpiece! No...your eyes are not playing tricks on you. This life like hand-carved pair of Buff Cochins is truly a magnificent work of art, the pride and joy of Buff Cochin breeder, Ed Thompson of Barrie, Ontario. Half in size of a normal Buff Cochin bantam, the male stands 5 1/2 inches high and the female, 4 1/2 inches on a wooden base measuring approximately 16 inches across. It took artist and poultry fancier, Al Forler of Kitchener, Ontario approximately 156 hours to complete this hardwood poultry masterpiece, complete with glass eyes and detailed shading in every area of the plumage. At \$10 an hour, it was well worth it for an avid Buff Cochin Breeder like Ed. Al "borrowed" a pair of Buffs from Ed and equipped with them, a Standard of Perfection and a natural love and interest in poultry, he hand crafted these two birds into a most ideal pair of Buff Cochin Bantams. Ed says, "the only thing not quite up to standard are the glass eyes, which are darker than the required reddish-bay, but these were the only ones available." Otherwise these Buff Cochins are perfect replicas of the breed. (Bernice MacLaren photo)

### 1999 WESTERN NATIONAL WILL BE HELD AT THE "SOONER CLASSIC"

November 27th and 28th

Plan now to attend. Start conditioning this years' winners and see how you stack up against the competition!

### FROM THE PRESIDENT'S PERCH:

Boy has it been hot here! During these stressful times, when those new birds are feathering out, we need to reduce the stress so that it will not effect the feather quality on those new feathers. You would think those Cochins would just go feet up in the heat, but I sometimes think that they handle it better than I do. I have a lot of windows and doors with screens in my coop. I have an exhaust fan as well as two room fans blowing in opposite directions running 24 hours a day. I give everyone fresh cold water twice a day when it is too hot. They really appreciate the water. Food consumption goes way down. In stressful times like these you always lose the weaker and older birds.

We are delighted to have Tom settled and back with us. The military does dictate your time, but as patriotic Americans, we have to accommodate for that. I know; my husband was in the Army Reserves for many years and we were lucky to have an employer, the U. S. Postal Service, who gave him military leave and did not make him use his vacation for it.

This fall looks to be an exciting show season. Our Western National is in Claremore, OK, November 27th and 28th. Bob Hawes has placed his District meet to coincide with the APA National at the Boston

The Cochins International Newsletter is published three (3) times per year.  
Approximate printing dates are January 1, May 1, and October 1.  
Send all submissions to the editor at least two weeks prior to the printing date.

Club questions and concerns regarding policy and all ballots should be sent to the *PRESIDENT*.  
All show placement requests should be sent by the show secretary to the appropriate area *DIRECTOR*.  
Material submitted for publication, show report and "Master Breeder" points questions and/or concerns should be sent to the *EDITOR and POINTS CHAIRMAN*.

Club Directory questions and information should be sent to the *DIRECTORY CHAIRMAN*.

Club Dues: \$10 Single/\$15 Family/\$7.50 Jr (Under 18)

Dues are due January 1st and membership runs from January 1st through December 31st of that year.  
All inquiries regarding club membership and payment of dues should be sent to the *SECRETARY-TREASURER*.

(Continued from page 1) President's Perch

Show, Oct 30th and 31st. Don't forget to put up prize money in your varieties for these shows. Bill Ryan can also order plaques for the Boston Show. Let's get out and promote our breed, large and bantam.

We should be caught up on our award plaques. Bill Ryan informed me that all the plaques were ordered and paid for and should be in the mail shortly if not already. This year we will still be giving plaques for both the National and District Meets. At the start of 2000 we will be awarding plaques only for the Nationals, and the District Meet winners will receive certificates. This was voted upon by our membership this spring.

Many members have received their 100 Point Merit Awards and several have received their 500 point Master Breeder Plaque. I think we need to create another award for a larger point amount. What could be the award...life membership, a page in the APA year book listing this person's achievements, another plaque? Let's think up a worthy award.

Matt McCammon is going to be assisting Dennis with the membership. Again I can't say this enough, we need a strong membership program so that all memberships are current and so that we don't have people participating that haven't paid their dues. Lack of moneys is always what makes any breed club go under.

I'm looking forward to seeing many of you at the fall shows around the country. "Have chicken van.....will travel." Let's all see how many new members we can get and maybe we can give some helpful advise to a new exhibitor. May all your chicks be champions!

Pat Lacey  
President

## Southwest District Director Notes:

The following shows have CI meets placed at them:

<u>SHOW</u>	<u>DATES</u>	<u>LOCATION</u>	<u>MEET TYPE</u>
Kansas St. Poultry Club	Oct 9-10	Hutchinson, KS	Regional

Colwyn Showcase	Sept/99	Fergus, Ontario	Regional
Royal Winter Fair	Nov/99	Toronto, Ontario	District

Bernice MacLaren

SHOE

## Editor's Notes:

Hello from Havelock, North Carolina!

I'm sure you all are wondering if you were ever going to see another newsletter again. Well, here's your answer! I am finally relocated and after moving into my house and unpacking I set about getting this newsletter on the street.

I certainly hope everyone had a successful breeding season and now that summer is upon us try to stay cool if you can. The fall show season is just around the corner, so now is the time to start conditioning your potential winners.

I hope to attend a couple shows around my area this fall. Unfortunately, I will not be able to make it to the Northeast District I meet at the Boston Show.

To echo what Pat said, our club is only as good as we make it. I was surprised to see that our membership went down slightly from the last newsletter. We are currently 182 members strong. However, since last year we had 34 Cochin people who did not renew their memberships. We need to keep these folks in our club and offer personally sponsored awards at our local shows to maintain an interest in Cochins and promote friendly competition and in so doing bettering the Cochin Breed and our Club as a whole.

Matt is helping Dennis with the membership portion of the Secretary-Treasurer's job, but we can all give Matt some assistance by getting Cochin Fanciers to join our club and encouraging them to stay involved! There are plenty of Cochin people out there who are not members. I know; I see every one of the show reports. If anybody would like extra copies of the newsletter to take to shows to give to "new members", let me know.

I was able to attend the Rip Van Winkle Show, in Altamont, NY, June 13th. I took my 11 year old son Clinton with me and he had a good time. Though it seems I have my work cut out for me if I want him to be a Cochin Fancier. He seems to be more interested in Old English. My dad did pretty well at the show taking the Best of Breed in Bantams on a Black Cock. Charlie Anderson had Reserve on a nice Blue cockerel. Christine Lehman had Best of Breed in the Large Fowl on a Black Hen and Bill Ryan had Reserve on a Black Cock. The CI members that were there all got together to talk chicken and discuss the happenings in the District. Bill Ryan told us all about the plaques that he can get. They are not very expensive so I encourage anybody who wants to offer an award to give Bill a call and put in you order (his address and phone number are on page two).

Any photos you have of your winners, feel free to send them my way and I will try to get them in the newsletter. It is very hard to get good copies of dark photos so if possible birds on a light background are the best, but I'm willing to try anything!

Jeff Ryan compiled a "Varieties Raised by State Cross Reference Table" which I have included in the Newsletter. I put it on the bottom of page 7 and 8 so that it can be cut out and added to your Breeder's Directory.

As always, anyone who finds an error in the Master Breeder Points or Show Results needs only to give me a call and we'll get it straightened out! My address, phone number and e-mail address are included on page 2.

For the records I have, I am caught up on 100 point Certificates of Merit, so anyone who has not received one and would like theirs, need only to drop me a note or give me a call. If you know what show (Show name, location and dates) put you over the 100 point mark, that make the certificate a little more meaningful, plus it looks good on the certificate!

Hope to see you on the fall show circuit!!

Always Cochins!

Tom

### Letter to the Editor:

A note to the members and especially the officer of the club. I have belonged to the club since it was first started and have noticed a trend that is common in other clubs. That is, people run for offices in the club and after obtaining the office, they fail to do the job they were elected to do. If it weren't for a handful of people that take their jobs seriously in the past and the present, our club would be out of business.

My concern is this: If you take on a position in the club, you should do the job. We all know the club officer/directors don't get paid and that it is strictly volunteer. Don't just volunteer for the position, volunteer for the JOB!

I want to commend the Northeast II District Director, William Lewis for doing a great job, the job he took on, to be that district's director. He puts the club meets out there, he writes articles for the newsletter, the Poultry Press and is promoting Cochins International. There were others in the past who held offices who also did their jobs well. These too, I commend.

I would also like to thank Dennis Wollard, and Bill Ryan for the fine job they are doing. We need more people with ambitious spirits to volunteer to run for such offices in the club and do the work that each position requires. I've said it before, and I'll say it again - "our club is only as good as we make it!"

Tom Roebuck, Sr. Wallkill NY

## **From Your Secretary:**

Now is the time to start thinking about officers for the coming year. Please, the more people we have involved in the Club, the stronger the club will become. If you feel you would like to run for the following offices, please send your name to Tom Roebuck Jr., before the next newsletter. The following are offices which you may consider:

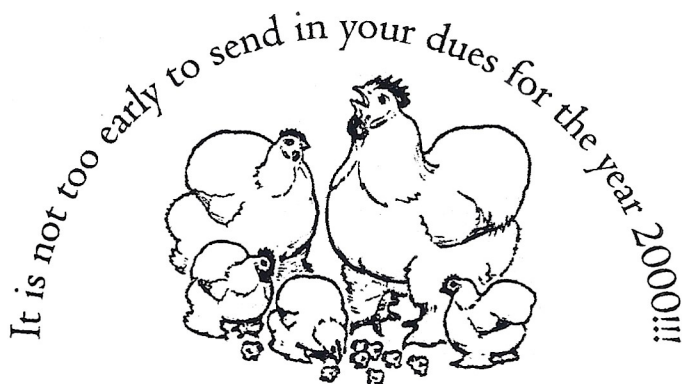

President

Vice-president

Secretary-Treasurer

District Directors to include: International, West Central, Northeast 1, Northeast 2, Southeast, Pacific, North Central, and Southwest.

Dennis Wollard

## **Letter to the Editor:**

In response to problems I alluded to with our Silver and Golden Laced Birds Ardjan Warnhuis sent me a possible solution.

Dear Tom,

...I don't know exactly what the problems are, but I think I can help a little bit to improve the type with the following lines.

We, trying to breed out porcelain (jubilee)? Cochins, had the problem with type too, as I wrote two years ago in the newsletter. How to improve type, by crossing with Cochin, without losing colour and markings?

The answer is: cross a cuckoo male into, in this case, silver and golden laced. Find the best typed cuckoo male you can get. Cuckoo is a colour where you can "park" your colour for a year without losing color and markings.

The F1-generation will be cuckoo with more or less red in the cockerels neck and shoulders. From here you can take two ways to get gold and/or silver laced with better type and fluffy feathers of the cuckoo.

First mate the F1 birds brother to sister. This way you will get cuckoo (both sexes) and gold or silver laced (latest 25%). The second way is to cross and F1-cockerel out of a gold laced hen to the best gold laced female you have got. Cross an F1-cockerel out of a silver laced hen to the best silver laced female you have. This way you will have some cuckoo (only male) and the percentage of gold and/or silver laced will be much higher (some 50 - 75%).

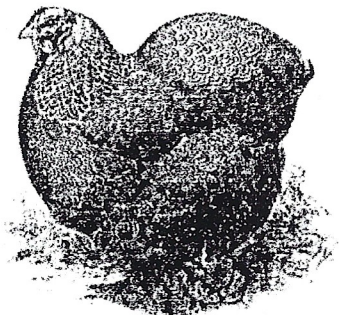

Among these F2-birds some will have the better type and the fluffier feathers of the cuckoo and the laced colour. Then in the next years breed a lot of them and select for type and lacing.

Be aware: this only works out if you start with a MALE cuckoo bird to cross in. We did the same last year with our porcelain (jubilee). I'll let you know how it worked out later. This method can also be used for partridge and mottled. Be sure the male cuckoo is heterozygote (light) for cuckoo. So don't use a cuckoo male from a black parent. This won't work. Only by getting in fresh blood the birds will be bigger and stronger and lay better than the originals.

Hoping to help John (Thyssen) and the others to improve the lovely gold and silver laced.

Greetings,

Ardjan Warnhuis  
Lembeck, Germany

## Northeast District I Report:

It's 92 degrees in the shade as I write this. Mainers are like polar bears, we don't function well at temperatures like this. Great news for the northeast! The Boston Poultry Expo will host the 1999 APA National on Oct. 30-31. We will have our NE District I Meet at this show. This meet was omitted in the recent APA report in the Press but I have checked with Edie and all is well. We will plan to have a table for CI material so please stop by and visit. I will be judging the Junior Showmanship classes on Saturday afternoon so hopefully someone will volunteer to look after the table at that time. We want to have a good array of prizes from CI members so please consider sponsoring an award. If it's cash you can send directly to Edie Rochette, Show Sect., 254 Old Cart Road, Haddam, CT. 06438-1248. Bill Ryan has a source of trophies at a good price so contact him at Box 212, Mayfield, NY. 12117 if you want to go with a trophy.

Our District supplied the winner for the ABA Semi-Annual at the Buffalo and Western NY Poultry Show. Charlie Anderson, from Massachusetts, had show champion with a Black Cochin cockerel. Hope you saw the photo in the July Press. Sorry not to have been there but had family obligations.

It's not too early to be looking at the fall elections. I won't be running this year so look around to find some energetic person to take over this job. The hours are long and the pay is low but good fellowship makes it all worthwhile.

Hope that you are all raising a few good ones this summer. I have some interesting Columbians coming along plus one or two Buffs that might be showable.

Cheers, Bob Hawes

## Northeast District II Report:

My wife Shannon and I have been in Delaware for a year now (March 23) and with summer finally settling in with warmer and warmer temperatures each week we too are also feeling more settled in than before. On April 28 we welcomed our first child, Megan Ashley Lewis, into the world. It marks the first time that anyone in our family has been born anywhere besides the South since our ancestors arrived in the new world from Scotland, Wales and Germany in the 1740's.

The 1999 District Meet for the Northeast II District has been granted to the Virginia Poultry Breeders Association, Richmond, VA, November 20-21, 1999. Regional meets have been placed with Uniontown (PA) Fairgrounds (October 15), York County Poultry Fanciers Association, York, PA (October 23-24), Blue Ridge Poultry Club, Galax, VA (October 30), and with the Maryland State Breeders Association, Frederick, MD (November 6). I am looking forward to seeing and meeting many of you at these meets.

On April 18<sup>th</sup>, 1999 the Delmarva Poultry Fanciers hosted a Cochins International Regional Meet. This was my first time showing at Delmarva, which turned out to be an excellent poultry show. There were 39 bantam Cochins, representing 7 different varieties as well as 7 large fowl representing 2 varieties. Donald Wright won BB and reserve featherleg on a black bantam cock, and also won RB on a black bantam hen. John DiNatale won BB on a large black pullet, with Kay St. Amour taking RB on a large black hen. In the bantam classes, BV blue went to William Lewis on a single entry, BV and RV black went to Donald Wright out of 11 blacks shown on a cock and hen, BV and RV buff went to Donald Wright out of 14 buffs shown on a cockerel and hen, BV and RV mottled went to Kay St. Amour out of 5 mottleds shown on a cock and hen, BV partridge went to Robert and Shirley Downes on a single entry cock, BV red went to a single entry cock by Artie Cosner, and BV and RV white went to Kenny Merrill out of 6 whites shown on two cocks. Further recognition should go to Donald Wright for a successful day with his black and buff bantams. Donald exhibited a very nice buff cockerel of good color, type and quality of feather. In the large class, BV black went to John DiNatale on a pullet; RV black went to Kay St. Amour out of 5 shown. BV and RV buff went to Kenny Merrill on the only two shown.

Best wishes to each of you this summer and fall. If I can be of any service to you please do not hesitate to contact me and as always let's have a strong contingent of Cochin breeders/exhibitors at all shows within the Northeast II District.

Sincere Regards, William D. Lewis

## Big Barreds Wanted:

John Barra, from Santa Maria, CA is interested in locating some large Barred Cochins. Anyone who is currently breeding them or knows someone who is, John would appreciate a note or phone call. His address is: John Barra, 112 N. Thornburg St., Santa Maria, CA 93454 and his phone number is (805) 925-9660.

## Anybody Hungry?

Jeff Ryan and Donna Lamb are looking at planning a dinner for Cochins International Members at the Boston Poultry Expo in October. This would be instead of attending the show banquet on Saturday night. All the CI members could get together and talk "cochin". Keep in mind that the Northeast I District Meet is at the Boston Show, Oct. 30-31, which is hosting the APA National. There should be quite a few CI members in attendance, so think it over and if you are interested give Jeff a holler and let him know one way or the other. His address is Jeff Ryan, 19 Hyde Rd., Gray, ME 04039, phone (207) 657-3606, e-mail: jdryan@javanet.com

## ELECTION 2000

## ELECTION 2000

It's almost that time again!! If

you have a desire to run for one of the CI Officers or Directors positions, let me know.

Send me your name

like to run for and

If we can get it organ-

newsletters goes out, I can probably include the Ballot for the year 2000 elections!!

and what office you would

then hit the campaign trail!!

ized by the time the next

## ELECTION 2000

Don't wait. Put your name  
in the hat now!

**“The Land of Lincoln Gathering....Poultry Show”**

Springfield, Illinois, Oct 9-10, 1976

A little Cochin history .....by **Mason Benn**

The show was organized by the late Marion Nash. It was held in a beautiful building on the Illinois State Fair Grounds. All 2,000 birds were single decked. There was a mezzanine level where you could overlook the entire exhibit.

The building was open all night Friday night for cooping in; believe it was the Stover’s who had an RV parked right at the entrance to help out exhibitors (I arrived at 11 pm).

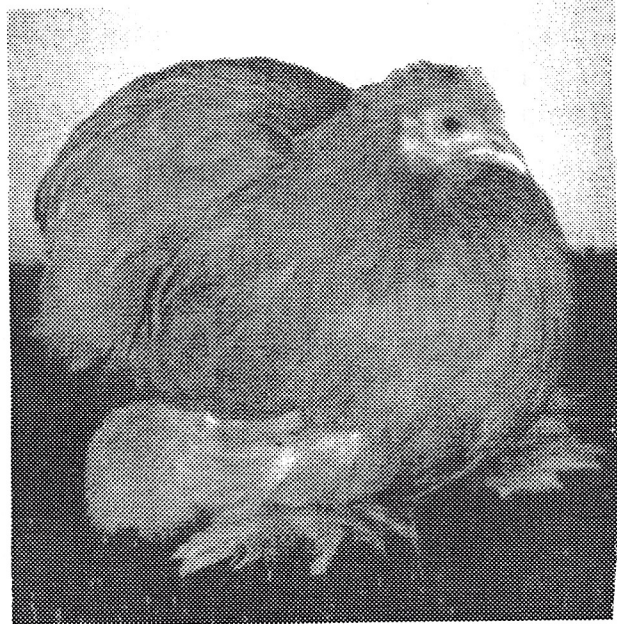

Upon checking in you were presented with a booklet that listed each coop number and the bird and its owner.....I was impressed. I believe it was organized in a manner much like the Madison Square Garden shows of years ago. All judging was completed on Saturday.

There was informative meetings on poultry subjects throughout the two days. Also, there was a Sunday morning program by a local singing group.... something for everyone.

I had the opportunity to meet many Cochin Breeders; Claire Hicks, Bob Enslin, and Kay St. Amour to name a few. Of course Mr. Nash had some quality large Black and Buff Cochins. I believe Alex Duffy attended.

In the 1970’s, Buff Cochin Bantams were not seen in large numbers, so 45 Buffs was a very large class. My birds were from Bob Enslin and Scott Adams breedings.

For me the “Land of Lincoln Gathering” was an experience which I have long remembered.

New Members Kevin and Donna Gallagher, of Verona, Ontario broke into the points charts in fine fashion!! Their Black Cock took Overall Champion Cochins and their Black Hen took Reserve of Breed Bantam at the Bracebridge Fall Fair, Bracebridge, Ontario, on Sept 20, 1998. The following week the Black Hen took Best of Variety at the Colwyn Showcase, in Fergus, Ontario, Sept 27, 1998. Congratulations! Note: The complete show results are included in the Meet Results section of this newsletter.

## Columbian Cochin Bantams

By Raymond K Price

(from the American Cochin Bantam Club 1946 Year Book)

These rare and beautiful birds will add to any fancier's flock, and always attract the attention of all who see them. The combination of the familiar Columbian color pattern with Cochin shape cannot help produce a beautiful bantam.

They don't always breed true to color, black or nearly black birds often turning up. For the true fancier, however, this should only serve to add interest.

In breeding them, I consider it safe to use five or six females to one male, provided they are all well trimmed out. First, throw out all birds that show a lack of vigor. Then pick out your best female, looking especially for type and feathering (get as broad a cushion as you can, because that is a weakness of many Columbians), and choose a male to fit her. The males are inclined to have legs a little longer than a Cochin should, so try to get one that is as close to the ground as possible. Never overlook undercolor in either sex, as this is importance in color breeding. Don't worry about the vulture hocks-they all have them. When choosing the male, be careful not to duplicate any defects the female may have. Look for a good hackle and a well striped saddle, but try not to get the heavy black markings found under the surface of the back, and also guard against white at the base of the main tail feathers. Try to use birds with good loose feathering and a broad saddle, and be sure he has a good head. Next, pick the rest of your females, one by one, until you have made up you pen. Match the male as well as possible. If you can and do mate your birds up in this manner, some good chicks should result. The breeder can sell as many of these as he can raise, because the supply does not even come near the demand. Here is a golden opportunity for someone. Start with some good stock, and give the Columbians a try. Once you've had this variety, you won't drop it.

**Editor's note:** Karl Rau, Dennis Wollard, Bob Hawes, and Jamie Matts to name a few can attest to the fact that the Columbians do not always breed true to color. I have seen some interesting offspring form Columbian to Columbian matings! I would have to say that the Columbians that are being bred now are much better type than what Mr. Price describes. He does however, make an excellent point in his description of color traits to look for in your breeders. I echo his concern to pay attention to the undercolor and white at the base of the tail.

How about one of our Columbian Breeders putting together an article on their current breeding experiences and practices??

## GIVE BEGINNERS A CHANCE

By J. L. Chism

(from the American Cochin Bantam Club 1948 Year Book)

In my few years as a breeder-exhibitor, I have taken some real good gyps. To begin with I didn't know my bantams and took the other fellow's word for quality and price. But after a couple of years in the show rooms and with a Standard, I've learned a lot-something new every day. Some fellows will advertise bantams of top quality with a line of winnings listed, but don't kid yourself- none of those winners are in the "For sale" category. I set up my own plan for explaining to inquiries. First, I state what I have for sale, then quality and price. I usually minutely describe the bird in question, faults, characteristics, good points, so the fellow can, from a word picture, see just about what he might buy from my pens. I spend more time with a beginner than with a veteran. The veteran usually knows what he wants and has full knowledge of the breed, whereas has to take your word for same. My policy in bantams has been "Give as you would like to receive." Give the beginner a chance, encourage them if they falter and, above all, sell the bird you described or promised them. Never ship a common run bantam for a show winner; sometimes it may backfire, and not in the crate either. A satisfied customer is the best advertising a breeder can buy. To the beginner my honest, sincere plea: buy the best you can afford and study their good and bad points, borrow a Standard of Perfection, read it and remember what you read. In breeding, eliminate faults, do not adhere to them. Never keep an off type or disqualified bird in your breeding pens. Best of luck with all the success to fellow fanciers everywhere.

## WANTED:

### ARTICLES AND PHOTOS FOR FUTURE NEWSLETTERS.

There are plenty of members who are experienced breeders from whom we could all learn a thing or two! Your articles and knowledge will be greatly appreciated.

(TER)

## WANTED:

## Mottle Cochins

By Pat Bloomer

(from the American Cochin Bantam Club 1948 Year Book)

Our mutual friend, your enthusiastic secretary, has asked me to write some notes on Mottles, and I am most honored to do so, although I feel it is "sticking my neck out" to write anything about Cochins in a publication primarily for American Cochin breeders for whose ability I have nothing but the greatest admiration.

I have been breeding Mottles (sometimes called Spangleds) for a little over ten years and find them a very interesting colour, but for some unknown reason they do not attract a great deal of support in England, in spite of the fact that they are always admired on the few occasions on which they are shown. It has been difficult to keep them going during the war, but by disposing of a few to one or two friends, this strain (the only one in Europe) has been maintained and the type and feather quality are as good as ever. The originator of the colour over here, Fred Worsley, was a great enthusiast about the quality of feather, and I have managed to maintain it to such an extent that it is usually superior to that of more popular colours shown in England; in fact, as it has been possible during these past seven years only to breed a few birds each year, I have concen-

trated on type and quality of feather more than on correct markings. The good lightly marked Mottle is, so far, in my experience, a pretty rare thing, and one has to breed a good many in order to get one or two to suit the fads and fancies of the judges. In this strain I have found that those which are most heavily marked with white are usually the best birds; the reason for this is that birds with wide feathers usually have bigger white tips to the feathers than those with narrower, shorter feather.

Occasionally, in order to improve a certain point, such as eye colour, I have introduced a black hen into the pen and from her products, which have always been black in the first generation, I usually produce some reasonably good birds. One ought to produce some lightly marked birds from this mating, but I cannot say that it always happens! One watches the chicks develop with even greater interest than usual, for the mottling starts coming on the breast in the adult feathering stage and then spreads all over after the black feathering has almost finished growing, and with all this extra care and handling they don't need much more training to be ready for the show.

I send my very best wishes to the A.C.B.C. members and am most happy to be in such good company....

## CONGRATULATIONS!!

The following breeders topped the 100 point mark this reporting period in the Varieties listed:

### Tom and Kathy Roebuck Sr.

Black - Bantams

### Ray Watford

Black - Large Fowl (Actually, Ray topped the 100 point mark a while back, but did not receive his certificate. That has been taken care of now. Thanks for your patience Ray!)

Congratulations also go out to William Serrine, Terry Ingram, Mason Benn, John Barrca, Forrest Beauford, Steve Jones, Donald Erickson, A. M. Prado Jr, Betty Kearns, Ronna Lefebber, Colin Roy, Kevin and Donna Gallagher, and Rocky Hughey for breaking into the points charts for the first time.

## Just a reminder.....

I can be reached via [e-mail](mailto:tomroebuck@surfnet1.net).

My e-mail address is: [tomroebuck@surfnet1.net](mailto:tomroebuck@surfnet1.net)

Articles are easier for me to get into the newsletter if they are sent this way, but if you are not "on-line", pen and paper or typewriter will do nicely!! :)

At any rate, send me your e-mail addresses so I can add you to my Cochins International e-mail group and we can talk Cochins via the internet! (TER)

# Meet Results

## Editor Corrections:

A couple clarifications and corrections to the January newsletter.....

At the Cobleskill Show (9/27/98) Charlie Anderson had BV Blue Btm, and at the Ohio National (11/13-15/98) he had RV Blue Btm. At the Buffalo and Western NY show (5/17/98) Frank Mickey Jr. had BB Std on a Black Pullet and RB Std on a Buff Cock. Matt McCammon's Mottled Hen was RB at the White River Poultry Club Show (9/5/98).

As always, anytime you find a discrepancy in the Meet Results or points listings, get with the respective show secretary and myself and we will get it ironed out.

For the above corrections the appropriate points have been added to your Master Breeder totals. (TER)
